

206 INNOVATION INC.

THE DILLON ARCHITECTURE™

A unified platform for
PREDICTION, VERIFICATION, CONTROL, AND
DEPLOYMENT

Prediction

Verification

Control

Deployment

One architecture. Multiple industries. Endless
impact.

PLATFORM FIRST

One reusable core

HIGH GROWTH

AI reliability wedge

BUILT FOR TRUST

Replayable proof

GLOBAL IMPACT

Multiple sectors

ONE PLATFORM. LIMITLESS POSSIBILITIES.
SOLVE TODAY. SCALE TOMORROW.

GLOBAL REACH
100+ COUNTRIES

ENTERPRISE READY
ANY INDUSTRY

BUILT FOR SCALE
ANY SIZE

ALWAYS ON
ALWAYS READY

2

THE PROBLEM

Enterprises lack trust in system behavior.

Systems generate data, but not the integrity, control, or proof required for high-trust operations.

Fragmented Data

Data lives in silos. Tools do not talk.

Probabilistic Systems

Drift creates uncertainty and inconsistency.

Limited Explainability

Black-box decisions make audits difficult.

No Replayable Proof

Logs are not verifiable evidence.

THE TRUST GAP

Throughput measured
Alerts generated
Decisions taken
Evidence missing

THE RESULT: HIGH COST, HIGH RISK, LOST OPPORTUNITY

67%

AI projects miss production

\$4.4T

data quality losses

80%+

lack audit-ready evidence

10x

cost after deployment

THE DILLON ARCHITECTURE™

One reusable platform core. Multiple domain packs.

1. Geometry Layer

Foundation of structure

2. Prediction Layer

Structure drives outcomes

3. Verification Layer

Proof and invariants

4. Control Layer

Policy and intervention

5. Deployment Layer

Execution and integration

ARCHITECTURE PRINCIPLES

Reliable • Deterministic • Auditable • Adaptive • Scalable

AI & Data

Cybersecurity

Telecom

Energy

Defense

Infrastructure

Enterprise

A unified platform engine for prediction, verification, control, and deployment at scale.

THE PLATFORM PORTFOLIO

Powered by the Dillon Architecture™

1

Dillon Energy™

Tidal & ocean energy platform

2

CVP Spin Overlay™

Integrity-control plane

3

Geodesic Shield™

Spectrum intelligence

4

Dillon Cryptography™

Adaptive trust layer

5

ODI Mesh™

Organizational intelligence OS

6

YCTP™ / Safe Bet Overlay™

Live mobile sports betting + integrity

7

SportsFan Crypto™

Fan token & stablecoin ecosystem

8

ChargeRail Mesh™

Connected venue infrastructure

9

Northern Flow™

Waterway systems

ONE ARCHITECTURE. MANY APPLICATIONS. LIMITLESS IMPACT.

SCIENTIFIC CORE

From Collatz to commercial platforms.

1. Collatz

seed problem of structure

2. Omega Genesis

structural emergence

3. Universal Proof Grammar

transferable patterns

4. CVP

Curvature Variable Physics

5. Verification Architecture

proof, replay, control

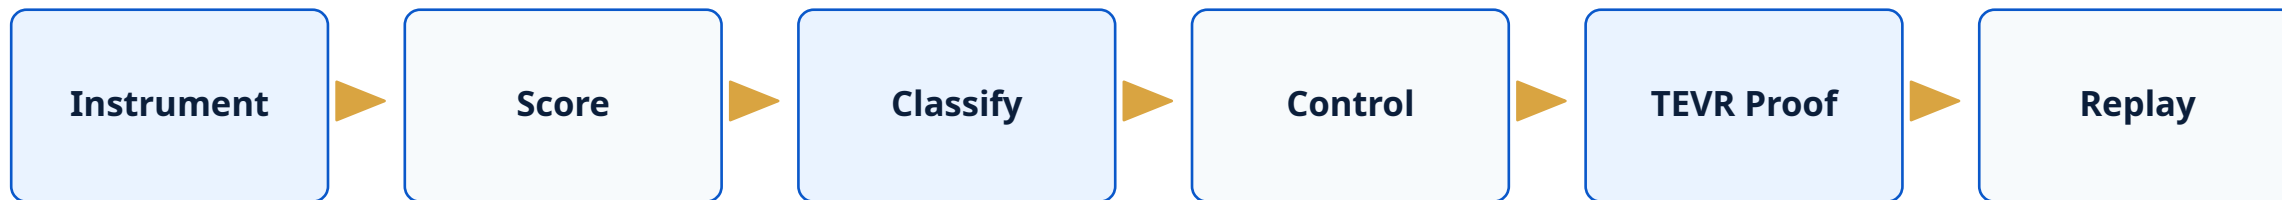

6. Commercial Platforms

real-world impact

6

VERIFICATION ADVANTAGE

From data to trust.

1

Boundary Instrumentation

Capture state at the edge

2

Replayable Evidence

Export proof bundles

3

Deterministic Validation

Verify outcomes

4

Trust by Design

Audit every action

NOT JUST OBSERVABILITY. INTEGRITY + CONTROL + PROOF.

CVP SPIN OVERLAY™

Integrity-control plane for high-trust systems.

1

Boundary Instrumentation

Attach at compute, I/O, and state boundaries.

2

Integrity Scoring

Detect drift and state-state propagation.

3

Policy Control

Gate interventions and approvals.

4

TEVR Proof Bundles

Export replayable evidence.

5

NVIDIA Path

GPU acceleration, digital twins, edge inference.

8 DEFENSE OPPORTUNITY

Geodesic Shield™ - deterministic spectrum intelligence.

1

EM Propagation

See the unseen.

2

Route Confidence

Navigate with certainty.

3

Spectrum Intelligence

Control the spectrum.

4

Mission Rehearsal

Simulate. Rehearse. Succeed.

DoD

Homeland Security

Aerospace

Telecom & 5G/6G

Industry

Global Partners

Predict the environment. Secure the mission. Export replayable evidence.

INFRASTRUCTURE OPPORTUNITY

ChargeRail Mesh™ - connected venue infrastructure.

1

Charge

Power at the point of experience.

2

Engage

Drive app usage and transactions.

3

Differentiate

Own the connectivity halo.

4

Optimize

RF + charging telemetry.

Airports

Power every terminal

Stadiums

Premium fan experience

Hotels

Smart infrastructure

Smart Cities

Connected communities

ENTERPRISE OPPORTUNITY

ODI Mesh™ - Organizational Intelligence Operating System.

1

PeopleReal-time alignment

2

ProjectsLive execution view

3

KnowledgeIntegrated memory

4

AutomationSmarter workflows**Predict**Outcomes and risk**Optimize**Resources and time**Monitor**Health signals**Decide**Data-driven action

1

Observe

Monitor cryptographic objects.

2

Classify

Omega state classification.

3

Score

BCDE exposure scoring.

4

Respond

Policy-driven countermeasures.

5

Heal

Self-healing trust layer.

Self-Healing Response

Adaptive controls

TEVR Evidence

Replayable proof

1

SportsTech

Live Mobile Sports Betting patents

2

Waterways

Transportation systems patents

3

Spin Overlay

Curvature & EM control filings

4

Defense

EM, EW & DoD portfolio

5

Cryptography

Structural trust patents

6

Energy

Fusion & grid filings

Existing and pending assets position 206 Innovation as an architecture-driven IP platform.

GLOBAL MARKET OPPORTUNITY

The world is ready. We are built to lead.

1

AI ReliabilityInitial wedge

2

Defense & Aerospace\$1T+ opportunity

3

Enterprise SoftwareGoverned workflows

4

InfrastructureConnected systems

ONE PLATFORM. LIMITLESS POSSIBILITIES.
SOLVE TODAY. SCALE TOMORROW.

**Energy**Transition + resilience**Telecom**6G/7G readiness**SportsTech**YCTP + SportsFan**Smart Cities**Connected infra**\$10.5T+**

global IT spend

18%+

CAGR

digital acceleration

100+

countries reach

WHY NOW

The perfect storm of opportunity.

1

AI Governance

Trust, control, and explainability required.

2

Defense Modernization

Autonomous and networked systems need resilience.

3

Telecom Transformation

6G, edge, and spectrum intelligence.

4

Infrastructure Digitization

Critical systems need integrity and uptime.

5

Regulation

Evidence, compliance, and auditability.

TECHNOLOGY IS READY. MARKETS ARE READY. 206 INNOVATION IS READY.

15 COMPETITIVE POSITIONING

Prediction + verification + control + deployment.

Company	Predict	Verify	Control	Deploy	Platform
Palantir	✓	Partial	Partial	✓	Single Layer
Anduril	Partial	Partial	✓	✓	Siloed Stack
NVIDIA	Compute	Partial	No	Partial	Compute Only
206 Innovation	✓	✓	✓	✓	One Architecture

ONE ARCHITECTURE. END-TO-END ADVANTAGE.

Not competing with one company. Combining capabilities normally delivered by many vendors.

From architecture to commercial deployment.

2026

- Platform hardening
- SDK readiness
- IP expansion

2027

- Lighthouse pilots
- Enterprise pilots
- Technology validation

2028

- Commercial launch
- Customer adoption
- Revenue growth

2029+

- Scaled ecosystem
- Global partners
- Platform expansion

Founder-led platform build with staged functional expansion.
